

## **Course Outcomes Economics PG**

### **Class: M.A. I (Economics)**

#### **Semester I**

Course (Paper) Name and No.: Micro Economics-I (2301)

CO1 Learners will understand basic economic problem.

CO2 Learners will get an idea about the applicability of indifference curve analysis.

CO3 Learners will be trained to understand consumer behaviour and elasticity of demand.

CO4 Learners will know recent developments in demand analysis.

CO5 Learners will develop to understand the concept of consumer surplus.

CO6 Learners will be able to understand concepts of production, cost and supply.

Course (Paper) Name and No.: Macro Economics-I (2302)

CO1 Learners will get with concepts of Macro Economics

CO2 Learners will understand the psychological law of consumption

CO3 Learners will be able to know revealed preference theory of demand

CO4 Learners will get knowledge of economics and diseconomies of scale.

CO5 Learners will get an idea about revenue curves and cost curves

CO6 Learners will know the Micro foundations of Macro Economics

Course (Paper) Name and No.: Statistics for Economics-I (2303)

CO1 Learner will know the types of measures of central tendency.

CO2 Learner will get ideas of co-efficient of variation

CO3 Learner will understand the method of data collection

CO4 Learner will understand the use of linear regression analysis and its problems.

CO5 Learners will understand recent population census

CO6 Learners will get idea agricultural and industrial statistics.

Course (Paper) Name and No.: Agriculture Economics (2304)

CO1 Learners will understand nature and scope of agricultural economics.

CO2 Learners will aware about how agricultural instability creates problems.

CO3 Learners will get rural industrialization and recent trends in agricultural development in India

CO4 Learners will understand concepts of work, skill and productivity in labour market.

CO5 Learners will know about the wages.

CO6 Learners will learn cropping patten shifts, prices of inputs and subsidies

Course (Paper) Name and No.: Urban Economics (2306)

CO1 Learners will understand the process of urbanization.

CO2 Learners will aware about features of urbanization in developing countries.

CO3 Learners will get factors and trends of urbanization

CO4 Learners will understand the problem of urbanization

CO5 Learners will know about 21st century urbanization in India.

CO6 Learners will learn planning of mega city and smart city

## **Semester II**

Course (Paper) Name and No.: Micro Economics-II (2311)

CO1 Learners will understand pricing under perfect competition.

CO2 Learners will get an idea about price and non-price competition.

CO3 Learners will be trained about price discrimination.

CO4 Learners will understand the theories of distribution.

CO5 Learners will develop to the reality of welfare economics.

CO6 Learners will be able to understand the neoclassical theory of interest

Course (Paper) Name and No.: Macro Economics-II (2312)

CO1 Learners will understand the relative effectiveness of monetary and fiscal policies.

CO2 Learners will be able to know how to control the inflation.

CO3 Learners will understand the meaning of stagflation.

CO4 Learners will get with Keynesian theory.

CO5 Learners will understand the trade cycle

CO6 Learners will know post Keynesian demand models for money.

Course (Paper) Name and No.: Statistics for Economics-II (2313)

CO1 Learner will know the basics of sampling and estimation.

CO2 Learner will get ideas of time series.

CO3 Learner will know the basics of probability and variable.

CO4 Learner will understand the laws of addition and multiplication

CO5 Learners will get idea about Chi- Square.

CO6 Learners will get idea about index numbers

Course (Paper) Name and No.: Industrial Economics (2314)

CO1 Learners will understand the various theories of the firms.

CO2 Learners will get understand relationship between industrialization and economic development

CO3 Learners will know that how firm adopts technical change.

CO4 Learners will understand financial aspects of firms.

CO5 Learners will get the history of development of Indian Industries.

CO6 Learners will understand the Industrial Policies

Course (Paper) Name and No.: Rural Development (2315)

CO1 Learners will understand the concept of rural development.

CO2 Learners will get understand relationship between rural development and economic development

CO3 Learners will know about cooperative movement.

CO4 Learners will understand migration of rural labour

CO5 Learners will get the the schemes for rural development.

CO6 Learners will understand the need and importance of rural technology

### **M A Part 2 Semester III**

Course (Paper) Name and No.: Economic Growth, Development and Planning-I (3111)

CO1 Learners will understand factors and measurements of economic development and growth

CO2 Learners will trained to measure different aspects of economic development indicators.

CO3 Learners will get with various modern growth and development models.

CO4 Learners will understand the classical theories of development

CO5 Learners will study the measuring development and development gap

CO6 Learners will get exact idea about human resource development

Course (Paper) Name and No.: International Trade & Finance-I (3112)

CO1 Learners will understand Features and Importance of International and Inter-Regional Trade.

CO2 Learners will trained about comparative advantage and opportunity costs.

CO3 Learners will get consumption & production effects on international trade.

CO4 Learners will understand recent developments in international trade theories

CO5 Learners will study the fixed and flexible exchange rate.

CO6 Learners will get exact idea about trade and growth

Course (Paper) Name and No.: Labour Economics (3115)

CO1 Learners will understand the types and Characteristics of Labour

CO2 Learners will learn the theory of labour demand.

CO3 Learners will aware about the theory of labour supply.

CO4 Learners will know wage issues in labour markets.

CO5 Learners will get with the labour market in India.

CO6 Learners will understand the effects and remedies of labour turnover

Course (Paper) Name and No.: Research Methodology for Economics (3116)

CO1 Learners will get with nature and scope of research in economics.

CO2 Learners will understand various types of research design.

CO3 Learners will understand methods of data collection and presentation and elementary analysis data.

CO4 Learners will understand about research methodology.

CO5 Learners will study different methods of testing hypothesis.

CO6 Learners will study how to write a report

### **M A Part 2 Semester IV**

Course (Paper) Name and No.: Economic Growth, Development and Planning-II (3121)

CO1 Learners will understand all about economic planning

CO2 Learners will understand the choice of technology.

CO3 Learners will get the role of monetary policy in growth and development.

CO4 Learners will understand the balance and unbalanced growth

CO5 Learners will study the sectoral aspects of development

CO6 Learners will get exact idea about FDI, MNC and developing countries.

Course (Paper) Name and No.: International Trade & Finance-II (3122)

CO1 Learners will understand India's international trade policies

CO2 Learners will train about regional economic blocks

CO3 Learners will get the structure of world trade organization

CO4 Learners will understand problem of international liquidity

CO5 Learners will study the need of foreign direct investment and private foreign investment

CO6 Learners will get exact idea about working and regulation of MNCs in India

Course (Paper) Name and No.: Business Cycles (3124)

CO1 Learners will understand definition and nature of business cycles

CO2 Learners will understand the business cycles in India during 20<sup>th</sup> century.

CO3 Learners will get the policies for controlling business cycles

CO4 Learners will understand about recession of 1990s and financial crisis in 21<sup>st</sup> century.

CO5 Learners will study theories of business cycles

CO6 Learners will understand the economic fluctuations and types

Course (Paper) Name and No.: Demography (3125)

CO1 Learners will understand the scope of demography

CO2 Learners will trained to measure projection of population

CO3 Learners will get the Census of India – 2001, 2011

CO4 Learners will understand the population policy in India

CO5 Learners will study the construction and uses of life-table

CO6 Learners will understand the theories of population
